

## Implementation of the RED in MS

### Lithuania (1/2)

- Laws to transpose RED
  - Draft Law of the Republic of Lithuania on Renewable Energy [No 1749(4)]
  - The Draft is being actively discussed in Lithuanian Parliament since spring 2010, mainly because it combines various interests from different groups of Lithuanian economy. The discussions are rather controversial. Most of the provisions of the RED are being incorporated into the law, including the sustainability criteria.

## Implementation of the RED in MS

### Lithuania (2/2)

- How are sustainability criteria implemented
  - Rules for calculating the greenhouse gas impact of biofuels, bioliquids and their fossil fuel comparators are transported into the national law by the minister's order, adopted on 3rd of January 2011. Other sections of the directive and their incorporation into the national law is still being discussed during the process of the approval of law.
